

INSTALLATION INSTRUCTIONS

Part Number 30519 Dash Overlay

Clean the dash with a clean cloth to remove all dust and dirt.

There is no room for error, so please be very careful. Once the parts have been applied you will NOT easily be able to remove them.

Remove the screws holding the factory dash gauges in place.

Place the Stainless Steel Dash Overlay in place one piece at a time. Carefully peel the tape backing from the tape. Carefully position the piece to be applied to the dash so that all the mounting holes will line up. Press the overlay piece in place and fasten using the Stainless Steel screws provided.
